A. Purpose; Commitments. The Parties are engaged in an ongoing, forward-looking dialogue to address the unmet need for public recreational aquatic facilities (“public aquatics”) in the northeast region of King County. This MOU provides summary of these discussions to date, and identifies the Parties’ key commitments toward a shared goal of improving the current state of public aquatics:

- 1) Each party shall complete a preliminary assessment identifying suitable sites within their jurisdictions for both regional and local public aquatics.
- 2) Parties agree to then cooperate and share all pertinent information relevant to public aquatics, including prior needs assessments and market analyses.
- 3) King County shall be responsible for engaging a consultant to develop a public aquatics assessment (the “Feasibility Study”), to include:
 - analysis of each party’s individual public aquatics need,
 - identifying potential synergies, cost-sharing opportunities,
 - creating an evaluation framework for site selection (for example: travel time, population density, demographics, etc.),
 - capital cost estimates for one (1) regional facility and up to three (3) local facilities, and
 - financing recommendations.
- 4) Deliver the Feasibility Study to the elected officials of each party to determine a future course of action.

B. Feasibility Study Funding. Each party agrees to contribute Fifteen Thousand Dollars (\$15,000) for the sole purpose of developing the Feasibility Study contemplated in this MOU. The Parties shall timely remit funds upon request by King County.

C. Term. The term of this MOU shall commence on the date it is fully executed by the Parties, and shall expire one-hundred-twenty (120) days following the completion of the Feasibility Study.
